

# ACTIONABLE INSIGHTS THAT DRIVE FINANCIAL IMPROVEMENTS

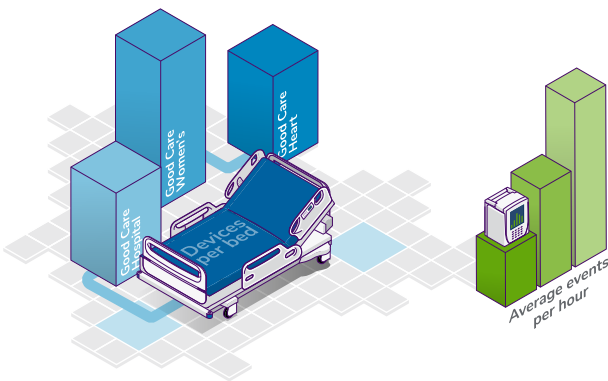

Data inputs integrated and analyzed  
in intelligent informatics platform

Output provides actionable recommendations  
with project tracking and approval workflows

Advanced technology facilitates inventory  
optimization and financial savings

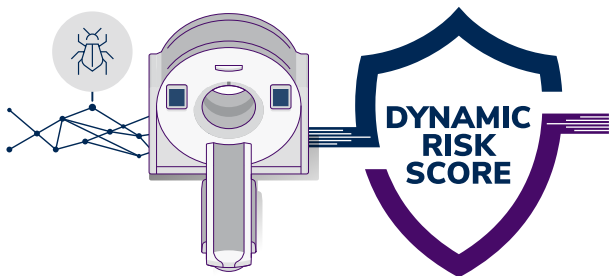

Clinical Asset  
Management

Extending useful life, utilization,  
and benchmarks

Medical Device  
Cybersecurity

Vulnerability data, remediation  
activities, Dynamic Risk Score

Clinical  
Engineering

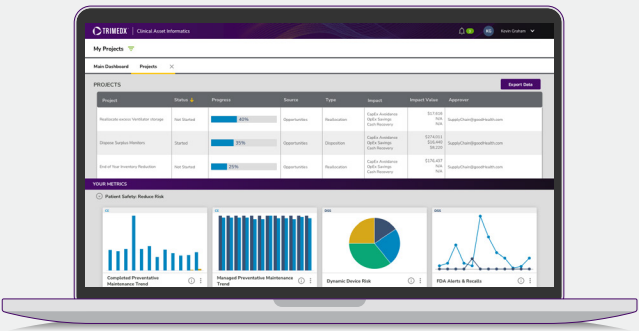

Inventory, repair history, parts availability,  
device demographics, FDA insights and recalls

Optimization engine

**RUDR  
SCORE**

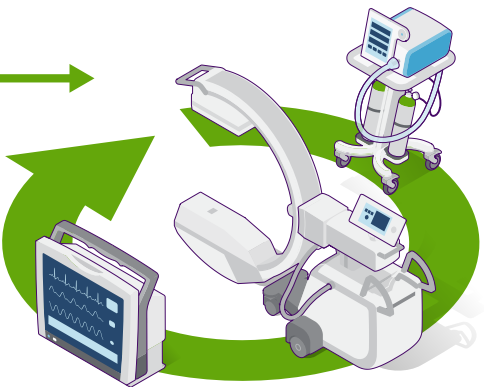

Visibility to savings and progress  
with Clinical Asset Informatics

Expertise and stakeholder  
alignment to establish best  
practice governance

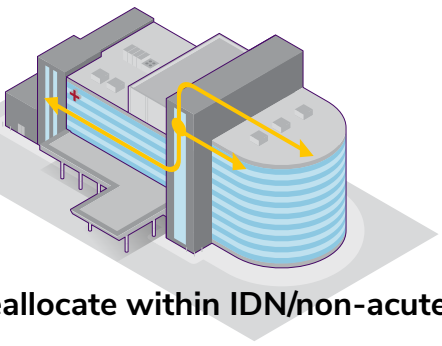

Strategic  
capital  
planning

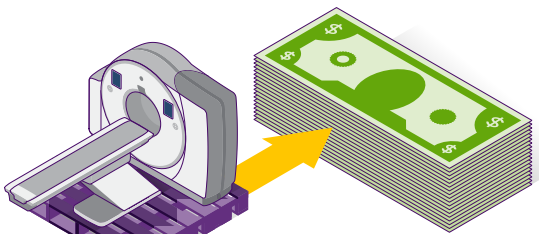

Replace/upgrade utilized devices  
Maximize device useful life

Reallocation

Reallocate within IDN/non-acute

Disposition

Resell via auction platform\*

Full-service asset removal

Financial impact

- ✓ OpEx savings
- ✓ CapEx avoidance and deferral
- ✓ Cash return from dispositions

Operational impact

- ✓ Patient safety
- ✓ Device availability
- ✓ Full compliance program
- ✓ Sustainable device disposal
