

CLINICAL ENGINEERING

AAMI BMET APPRENTICESHIP PROGRAM

Sponsored by TRIMEDX

INVESTING IN THE NEXT GENERATION OF BMETS

TRIMEDX invests in the next generation of clinical engineering talent through a biomedical equipment technician apprenticeship program, launched in 2022 in partnership with the Association for the Advancement of Medical Instrumentation (AAMI).

- **Recognized by the U.S. Department of Labor**
- **Combines traditional education and up to 6,000 hours of on-the-job learning**

Apprentices work for 24 months with an expert team of TRIMEDX Biomedical Equipment Technicians (BMETs), gaining valuable on-the-job training and experience. Participants also have extensive education opportunities including anatomy/physiology, medical terminology, electronics, and other related courses. The cost of these collegiate-level courses is sponsored by TRIMEDX, and the program provides a pathway to a career in clinical engineering for people who have little to no experience or non-traditional backgrounds.

GAIN VALUABLE ON-THE-JOB TRAINING AND EXPERIENCE

- **Creating a pathway** to a long-term career in clinical engineering for those with a passion in how healthcare technology changes lives.
- **Building a talent pipeline:** The goal is to create a long-term career trajectory for the apprentices and ensure they are eligible for an advanced BMET position by the time they finish the two-year program.
- **Fostering community:** To enhance the program experience and to experience TRIMEDX's culture, apprentices engage in discussion both virtually and in person. Teams discuss the state of the industry, ways to innovate, and how they are making a difference in the communities they serve.

"You think about in today's economy, today's world, just how expensive it is to try and get a degree or just take a class. It's super expensive," says Allen. "That was definitely a selling point that I looked at very closely."

— **Morrey Allen,**
biomedical engineering apprentice

WHY TRIMEDX?

SPEND TIME WHERE IT MATTERS MOST.

With TRIMEDX's innovative technology, centralized support teams, and focus on continuous improvement, technicians can spend more of their time dedicate to service—the part they enjoy most.

TRIMEDX **TOTAL REWARDS**

Other benefit offerings include:

- Tuition reimbursement
- Ongoing training and education
- Parental leave
- Growth and promotional opportunities
- Comprehensive benefits package including medical, dental, vision, and 401K
- Job opportunities available on a national level
- International volunteer opportunities through the TRIMEDX Foundation

FIND YOUR **PASSION.**
GROW YOUR **CAREER.**
